	Name:				AS FAR MAA				
	Farmers grow plants (crops) on their farm. Plants have different parts, such as roots, stems, leaves, flowers, seeds and fruits. We eat different parts of the plants farmers grow.								
<b>Look</b> at the list of food items below. <b>Decide</b> on which part of a plant it would grow.									
	eggs	carrots	spinach	apples	peas				

eggs	carrots	spinach	apples	peas
corn	hamburger	asparagus	potatoes	cherries
lettuce	peppers	onions	peanuts	bacon
strawberries	lima beans	hotdog	radishes	broccoli
celery	cabbage	watermelon	cheese	Sunflower seed

**Classify** each item above by writing it in the correct section below.

ROOTS	STEMS	LEAVES
SEEDS	FRUITS	NOT FROM A PLANT
